

CLAIMS

1. A pair of briefs comprising a base panel, a front inner panel fastened to said base panel and disposed at a front side, a front outer panel
5 fastened to said base panel in front of said front inner panel, and a waistband fastened to said base panel, said front inner panel and said front outer panel around a top side, said base panel, said front outer panel and said front inner panel being respectively made of elastic fabric;

10 wherein said front outer panel has a seam smoothly curved and vertically extended between the midpoint of a top side thereof and the midpoint of a bottom side thereof, and a convex portion formed around a middle area of the seam of said front outer panel; said front inner panel has a first seam smoothly curved and vertically downwardly extended from the midpoint of a
15 top side thereof, a second seam smoothly curved and vertically upwardly extended from the midpoint of a bottom side thereof in line with said first seam and spaced from said first seam at a distance, and a convex portion formed around a middle part thereof between said first seam and said second seam corresponding to the convex portion of said front outer panel for
20 accommodating the user's external genital organs.

2. The pair of briefs as claimed in claim 1, wherein said base panel, said front outer panel, said front inner panel, and said waistband have the same elastic ratio.

3. The pair of briefs as claimed in claim 1, further comprising two thigh bands bilaterally fastened to said base panel, said front outer panel and said front inner panel, forming two elasticized leg holes for the legs.

5 4. The pair of briefs as claimed in claim 3, wherein said thigh bands have the same elastic ratio like said base panel, said front outer panel, said front inner panel, and said waistband.
